

Where Quality  
Meets Reliability

# ABOUT COMPANY

Flux horizon technical services is a professional contracting and technical services company dedicated to delivering reliable infrastructure solutions. Our company offers a wide range of installation, maintenance, and contracting services for buildings and facilities.

We work with commercial properties, residential developments, retail spaces, and industrial facilities to provide efficient and dependable services.

Our experienced team of engineers, technicians, and skilled workers ensures that every project is completed with the highest standards of safety, quality, and performance.

## Our Core Values

- ✔ Quality Workmanship
- ✔ Professional Integrity
- ✔ Customer Satisfaction
- ✔ Safety & Compliance
- ✔ Reliable Service

## OUR MISSION

To provide dependable technical services and construction solutions that improve the efficiency, safety, and sustainability of modern buildings.

## OUR VISION

To become a trusted leader in technical services by delivering innovative, reliable, and high-quality solutions.

# False Ceiling & Light Partitions Installation

Professional installation of modern false ceilings and lightweight partition systems designed to enhance interior aesthetics and functionality. We provide gypsum board ceilings, acoustic ceilings, and partition solutions suitable for offices, commercial spaces, and residential interiors.

# Electrical Fitting Contracting

Complete electrical fitting contracting services including wiring systems, lighting installations, power outlets, and electrical accessories. Our team ensures safe, efficient, and standards-compliant electrical installations for all types of buildings.

Reliable Electrical and Interior Solutions **Built with Precision**

# Electromechanical Systems Installation & Maintenance

Installation and maintenance of essential electromechanical systems used in modern buildings and facilities. Our services include mechanical equipment setup, system testing, preventive maintenance, and performance optimization. We ensure reliable system performance and operational efficiency through skilled technical expertise and quality service standards.

# Building Repair & Maintenance

Comprehensive building maintenance services to ensure properties remain safe, functional, and well-maintained. We provide routine inspections, repair services, and preventive maintenance for residential, commercial, and industrial facilities, ensuring long-term building performance and operational reliability.

# HVAC & Air Filtration Installation & Maintenance

Installation and servicing of HVAC systems that provide efficient cooling, ventilation, and air purification. We deliver reliable climate control solutions for residential, commercial, and industrial environments, ensuring consistent air quality and energy-efficient performance.

# Plumbing & Sanitary Installation

Professional plumbing and sanitary system installation including water supply lines, drainage systems, sanitary fixtures, and piping networks. Our services ensure reliable water flow, efficient drainage, and long-lasting plumbing infrastructure.

# Power Distribution & Control Panel Installation

Installation of electrical transmission systems and control equipment such as distribution panels, control units, switchgear, and power management systems to ensure stable and efficient electricity distribution, supporting reliable power control and safe electrical operations.

# Electrical Fixtures Repair & Maintenance

Inspection, repair, and maintenance of electrical fittings and fixtures including switches, lighting systems, sockets, and electrical accessories to maintain safety and optimal performance, ensuring reliable operation and long-lasting electrical infrastructure.

Ensuring Safe and Stable Power Through **Professional Electrical Systems.**

# Exterior Building Cladding Installation

Professional exterior cladding installation that enhances building appearance while providing protection against weather and environmental factors. We install durable and modern facade solutions suitable for various building types.

# Floor & Wall Tiling and Plaster Works

High-quality tiling and plastering services for interior and exterior surfaces. Our skilled team ensures precise tile installation and smooth plaster finishes that enhance durability and aesthetics.

# Carpentry & Wood Flooring Works

Expert carpentry services including custom woodwork, interior fittings, and wood flooring installation. We deliver durable craftsmanship and elegant wooden finishes for residential and commercial spaces.
